Summary of Significant Career Events

- 1 Entered NAVCAD training in November 1955
- 2 Received an individual Battle E for High Altitude Dive delivery while a student in the A-4 RAG.
- 3 First (maybe only) A4 pilot to write SecNav requesting assignment to an A6 squadron.
- 4 First A6 Pilot to recover aboard an aircraft carrier with the crew member partially out of the aircraft and his personal parachute streamed.
- 5 As a wingman, successfully employed a new A6 night coordinated attack tactic to destroy a NVN Thermal Power Plant in a three-plane simultaneous strike.
- 6 Led the first Navy Laser Guided Bomb Alpha Strike employing the Navy PAVEKNIFE airborne Laser Designator on January 16, 1973 and destroyed 14 bridges in a single mission.
